

We are committed to keeping you and our staff members safe! Look for our Seal Of Cleanliness throughout the center. We are using these to assure ourselves and you that our equipment and high touch areas are being sanitized on a regular basis. We do have dividers between each pair of lanes. Furthermore, you will see that some equipment throughout the facility will not be for consumer use at this time so that we can track and sanitize more effectively.

Not only are we sanitizing, but we are sanitizing with a specially formulated sanitizer encouraged for use in entertainment venues by ICE. This solution is guaranteed for continuous effectiveness for up to 90 days after

application. This sanitizer will be used as part of our cleaning regimen throughout our facility on a regular basis including the arcade area, laser tag arena, spinzone bumper car arena, bowling areas and more!
