

Short-term Rehab | The Rehab Center at Richfield

We understand what you want from rehab – a return to the activities you enjoy. Whether you're recovering from surgery, injury, or illness, you also want an environment that respects your dignity.

The Rehab Center at Richfield brings years of experience, the latest technology, and a caring, knowledgeable staff to help you achieve your goals. Our outcome-driven services are designed to make you stronger, more active, and return you to where you most want to be – home.

Serving as a bridge between a hospital stay and the patient's return home, all rooms are private and certified for Medicare part A, private pay and most managed care plans.

Pre-Planning Your Stay

For individuals who have scheduled elective procedures including knee, hip and spinal surgeries, our unique **Pre-Planning Program** allows patients to prepare and arrange for their stay in advance. Combining convenience and efficiency, this program offers peace of mind at a crucial time for patients and families alike. We invite you to learn more about **The Rehab Center at Richfield** and our unique environment for recovery.
